

COMMERCE BILL CONFERENCE

Reciprocity Bill Said to Be Held
in "Statu Quay."

STATEHOUSE DEBATE GOES ON

ACTION OF MAJORITY DEFEND-
ED BY FORAKER.

Washington, Jan. 29.—In the senate today Mr. Hanna moved to disagree to the amendments of the house to the department of commerce bill and agree to a conference. The chair appointed Messrs. Hanna, Nelson and Clay on the part of the senate.

A senate bill was passed authorizing the building of dams and other improvements on the Columbia river in Washington.

Mr. Dietrich of Nebraska presented a resolution discharging the committee on relations with Cuba from further consideration of a house bill pertaining to Cuban reciprocity. Reciprocity, he said, is being held in "statu Quay" in the senate, and he asked that the resolution lie on the table, as he desired to submit some remarks upon it.

House bills were passed appropriating \$5,000 for the first Baptist church of Cartersville, Ga., destroyed during the civil war by the United States troops; granting to Nellie Pitt Feen certain lands in North Dakota. Mrs. Feen is the wife of a Chinaman who made the original finding, which was rejected by the land office. The bill has heretofore met with opposition in the senate.

The Rawlins resolution calling for the proceedings in certain court martial cases was then laid before the senate.

Mr. McLaughlin of Mississippi detailed certain acts of cruelty on the part of the American soldiery toward the Filipinos and women, and said that the senate should have the evidence in these cases. He remarked that it was easy to say that a man was guilty of slaughter and defilement in the senate toward the army, but when the army was slandered by showing them to have been guilty of outrages, and he argued that they had been weeded out of the service.

The resolution went over until tomorrow.

Mr. Proctor reported the army appropriation bill, which he said, he would call up at the earliest moment.

Mr. Lodge resumed his remarks in opposition to the omnibus statehood bill.

A message from the president was received in which he asked for the necessary power to co-operate with Mexico and Canada regarding the gold and silver of the country.

It was referred to the committee on finance.

Mr. Ford then addressed the senate in opposition to the omnibus statehood bill.

On the conclusion of Mr. Ford's remarks, Mr. Proctor, in the temporary absence of Mr. Quay, said that from statements that had reached him the action of Mr. Quay in introducing the statehood bill was a gross misapprehension to the postoffice and sundry civil appropriation bills was regarded as an unbecoming proceeding. It was not unbecoming at all, he said, it was simply a question of whether a majority of the senate could do a thing it wanted to do. He proposed to previous legislation on appropriation bills and said that an appropriation bill had contained the provision establishing a civil government for the Philippines, and that the army appropriation bill had contained the provision for the Philippine legislature known as the Spooner amendment, which he accepts are said to be of such a nature that the appointment undoubtedly will be made.

Mr. Clay of Georgia also took the same position and read from the record showing that the Philippine legislature known as the Spooner amendment was voted upon the army appropriation bill.

After a brief executive session the senate, at 4:35 p. m., adjourned.

A ACCEPTED THE POSITION.

Washington, Jan. 29.—John T. McDonough, formerly secretary of state of New York, has accepted provisionally the appointment of justice of the supreme court of the Philippines.

He is said to be of such a nature that the appointment undoubtedly will be made.

THEORIES ABOUT FOOD.

Also a Few Facts on the Same Subject

We hear much nowadays about health food and hygienic living and vegetarianism and many other fads along the same line.

Restaurants may be found in the larger cities where the meat, pastry or coffee is served and the food crink is in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost as many theories as our sturdy ancestors who lived four scores years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to corn.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most nutritious in a highly concentrated form and is digested and is assimilated more quickly than vegetables and grains.

Dr. Julius Reimann on this subject says: "Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use."

"That large class of people who come under the head of nervous dyspepsia should eat plenty of meat and insure its proper digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures, are useless for indigestion as they have absolutely no effect upon the actual digestion of food."

"Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the result is a failure to solve the riddle and cure the dyspepsia is to make daily use at mealtime of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles."

SILVER USING COUNTRIES ASK AID IN SOLVING FINANCIAL PROBLEM

Washington, Jan. 29.—President Roosevelt today sent the following message to congress:

"I transmit herewith a report from the secretary of state with accompanying notes from the Mexican ambassador and the Chinese chargé d'affaires ad interim, which seeks the co-operation of the United States in such measures as may be necessary to maintain a fixed relationship between the moneys of the gold standard and the silver-using countries. I request that the executive be given sufficient powers to lend the support of the United States in such manner and to such degree as he may deem expedient, to the purposes of the two governments."

(Signed) "THEODORE ROOSEVELT."

The message was referred to the committee on finance. In his communication Mr. Roosevelt stated that the United States modified its monetary system, and it is distinctly disavowed that any government contemplated for the restoration of international bimetalism. The opinion is expressed, however, by the representatives of both governments that consultation between the United States and European powers

THE ARMY APPROPRIATION BILL REPORTED TO SENATE YESTERDAY

Washington, Jan. 29.—The army appropriation bill was reported to the senate today, amended in various particulars. The most important amendments provide for the retirement with advanced rank of officers who served in the civil war and for the creation of a general staff. The retirement amendment is in the exact language of the bill recently reported by the senate military committee, and the staff amendment is in the language of the staff bill recommended by the secretary of war, with the military committee's amendments added.

The committee recommended in appropriations increases aggregating \$3,366,000, the total carried by the bill as reported being \$77,241,277.

Among the more important amendments made by those already mentioned are the following: The addition of twenty-five master electricians to the artillery corps at \$75 each per month; authorizing the detail of twenty additional retired army officers as military attaches at foreign courts and as instructors in the organization of the army; granting officers the privilege now enjoyed by enlisted men of making deposits of funds with the paymaster general and receiving in return a receipt for the money; and providing for the transfer of the Porto Rican provisional regiment and

ENGINEER DAVIS DEAD

In His Last Breath He Denied
Responsibility For Grace-
land wreck.

New York, Jan. 29.—Chief of Police Kieley of Plainfield admits that he has obtained an important statement from Davis, the engineer who sustained probably fatal injuries in the wreck at Grace-land Tuesday night and morning from Fireman McCarthy.

Mr. Kieley told he could not live and the circumstances of the accident and the blame primarily upon others connected with the New Jersey Central road, but not a hint as to the nature of the statement could be learned from the chief of police.

Chief Kieley says both statements, which are regularly sworn to, will be made public at the proper time by the proper officials.

Chief Kieley said that a train order sent to the engineer for the express was received too late to be of any use. He said that the engineer said that the order was received in time and a red signal was set as usual to notify the engineer that there was an order for his train at that station.

Mr. Kieley said that the train was miles from the scene of the wreck, and it was discredited, he said, "as well as the statement of the engineer, who was taken farther on and all the red lights and warning signals, seven of them. It is strange that the engineer should be so far from the scene of the wreck when the express was being done along there."

Plainfield, N. J., Jan. 29.—Engineer James H. Davis of the Reading train, which crashed into the trestle near Grace-land Tuesday night, died in the Mulenberg hospital today. The other victims of the wreck were at the hospital are reported to be doing well, and could be expected, but it is feared several may not recover.

MOSTLY PROMOTIONS.

President Sends Several Nominations
to the Senate.

Washington, Jan. 29.—The president today sent the following nominations to the senate:

George E. Roberts, Iowa, to be director of the mint.
Colonel Charles L. Davis, Fifth infantry, to be brigadier general.
Colonel Richard H. Pratt, Fifth cavalry, to be colonel.
Major Frederick Ward, First cavalry, to be lieutenant colonel.
Captain Eben Smith Swift, Fifth cavalry, to be major.
First Lieutenant C. Whitehead, Tenth cavalry, to be captain.
First Lieutenant Henry M. Morrow, Ninth cavalry, to be judge advocate.
The first of the above nominations is reported to be a lieutenant in the field, at large, to be a lieutenant in the infantry.

To be assistant surgeon, navy, Richard T. Sutton, Missouri.

WOMAN HYPNOTIZED HIM.

Janowski Convicted of Murder in the
First Degree.

Cleveland, O., Jan. 29.—The jury in the trial of Charles Janowski for killing Ignatz Wukowski returned a verdict today of murder in the first degree, and recommendation for mercy, which will probably result in a sentence of life imprisonment.

The trial attracted much attention because of the plea made by the defense that the murderer's mind was easily affected by others. The prosecution objected, but the court told the jury that the testimony could be accepted for what it was worth.

Mrs. Wukowski is in jail charged with having induced Janowski to commit the murder.

REMARKABLE OPINION.

Brownell Cannot Be Reached by Civil
or Military Law.

Washington, Jan. 29.—The attorney general has rendered an opinion to the effect that Captain Brownell, who was a member of the 10th Vermont regiment, whose name has been mentioned in connection with the killing of Father Augustus in the Philippines, and whose conduct has been a subject of discussion in congress, is no longer amenable to the civil or military law for his actions while in command of a Vermont regiment in the Philippines.

having dependencies in the Orient and the independent countries which silver money is in general use, may result in the adoption of a monetary system which will prevent the great fluctuations in exchange which now exist in trade with the silver-using countries. If such a result can be achieved, and it is pointed out that at least a partial solution has been effected in the United States in a bill now pending in the senate in regard to the Philippine Islands, great benefits will follow to the trade of the world by the opening of the access of the products of the manufacturing nations to the markets of China and the other silver-using countries.

"The consideration of this subject may have an important bearing also on the payment of the indemnity due by China to the European powers, and to the United States by enabling the Chinese empire to put her monetary system upon a basis which will make it possible for her to meet these payments in a manner satisfactory to all the powers. This result, if it could be accomplished, would be of importance, not only to the United States and to the other powers having a share in the indemnity payments, but to China herself and her future development."

CHINA ON THE VERGE OF ANOTHER BOXER UPRISING.

Victoria, B. C., Jan. 29.—According to advices received from North China, fears are entertained that China is planning another outbreak similar to that of 1901. The North China Daily News says:

"It has been learned on good authority that Yung Lu, the real ruler of China, and the man who is reported to be responsible for the murder of Professor Hubert James of the Peking university, will centralize the command of the military forces of the empire, at least the troops north of the Yangtze, under himself and his henchmen, Yuan Shih Kai and Tung Fu Hsiang. The plot for the simultaneous overthrow of foreigners in 1900 failed, owing to the unwillingness of so many viceroys and governors to carry out the order telegraphed to them. On the next occasion the order is to be sent to the military officials, who are to obey it as far as possible. The maximum impression on military officials is: 'Superiors can do no wrong.' Subordinates are to be obedient to the morality of an order, and with consequences following obedience to it."

A correspondent of the Shanghai papers says:

"A census of Christian converts has been carried out and neighbors are to be held responsible for an exact declaration as to all friends of foreigners in their households. The census will not leave one Christian demon alive in Shensi and Kansu, is the boast of Tung Fu Hsiang, and the friends of foreigners will be treated as traitors."

The North China News, in a long article headed, "A Word of Warning," says:

"It is an anxious time for the diplomatic body at Peking. The strenuous efforts of Yung Lu to concentrate all power in his own hands and those of his henchmen, the expositions that Yuen Shih Kai is making of his well-drilled and well-armed troops round the capital and at Shan Hai Kuan; the signal corps provided by the house bill."

Mr. Cosgriff is a member of the firm of Cosgriff Bros., which owns banks in Saratoga, Fort Steele, Rawlins, and Salt Lake and Murray, Utah, also general merchandise stores in Salt Lake, Saratoga, Fort Steele and other towns. The company is heavily interested in the sheep business, and annually ships about 60,000 pounds of wool.

Mr. Hickox, the retiring president, has been a resident of Cheyenne for the past twenty-five years, and will continue to reside in the city. He needs a long rest, however, and as soon as his business affairs are arranged satisfactorily he will leave for his home in Cheyenne and give his attention to local interests.

HOUSE PROCEEDINGS.

The Indian Appropriation Bill Went
Through the Hopper.

Washington, Jan. 29.—When the house met today it was agreed that tomorrow's session bills from the committee on Indian affairs should be considered, and that recognition should be accorded to members alternately on each side of the aisle to call up bills on the calendar.

The house then resumed consideration of the Indian appropriation bill.

Mr. Tracy of Iowa offered an amendment to authorize fifty children of native-born Indians to be admitted to the Carlisle Indian school.

The appropriation of \$10,000 for the Carlisle Indian school was approved without further substantial amendment. The bill was passed.

The house took up the consideration of the postoffice appropriation bill, and Mr. Patterson, Tennessee, took the floor to discuss the subject of anti-trust legislation.

The department of commerce bill was sent to conference and Messrs. Hepburn of Iowa, Mann of Illinois and Richardson of Alabama were named as conferees.

At 5:35 p. m. the house adjourned.

JOINT WAGE CONFERENCE.

Committees Appointed by Operators
and Miners.

Indianapolis, Ind., Jan. 29.—The joint conference between the miners and operators of the central competitive bituminous coal district, composed of western Pennsylvania, Ohio, Indiana and Illinois, began here today. President Mitchell of the United Mine Workers called the conference to order, and was selected temporary chairman.

The selection of different committees by both the operators and the miners was immediately taken up. About 250 operators and 400 miners were present at the opening session.

Joint committees consisting of two miners and two operators from each state, with the exception of the wage scale committee, were appointed today.

NO COAL IN BLACKFOOT.

Foot of Snow on the Ground and Zero
Weather.

Blackfoot, Ida., Jan. 29.—There has been no coal in Blackfoot for three days. With nearly a foot of snow on the ground and zero weather there is considerable apprehension of a serious fuel famine. Dealers are unable to obtain any coal and the situation is getting quite serious.

PETTY PARTISANSHIP.

Democrats in the Idaho Legislature
Ignored.

Boise, Ida., Jan. 29.—Moore of Idaho county in the house and Ballantine in the senate made vigorous speeches against the policy of the Republican majority in holding up bills introduced by Democrats. Moore said it "was the smallest kind of politics." The Republicans entered a denial. As a matter of fact, no bill introduced by a Democrat has been reported by any committee.

New bills in the house: By Galloway, to submit an initiative and referendum amendment, to Elsie Berger, to liberate divorced women in taxation; exemption granted to widows and orphans; by McBride, requiring school trustees to issue annual reports; by Ainsworth, memorializing congress to improve the Pend Oreille river.

A bill appropriating \$1,465 to pay for material in the state building at the Chicago Coliseum was reported by the house. A bill appropriating \$5,000 for maintenance, \$50,000 bond issue to purchase site and buildings and 60,000 acres of state land for a reform school in Fremont county passed the house.

A bill granting authority to the pardon board to pardon or parole juvenile offenders without advertising or notice passed the house.

In the senate \$15,000 was appropriated to bridge Snake river at Weiser, the Democrats voting no.

BOTH SIDES AGREED.

One Question Partly Eliminated
From Strike Controversy.

Philadelphia, Jan. 29.—The Philadelphia Reading Coal & Iron company, the largest of the large coal companies to put its case to the coal strike commission, took up the time of the day's sessions of the commission. At the afternoon session an amendment was made that the mine workers and the Reading company's officials had agreed that the weighing of coal in the southern coal fields is impracticable. This settles, for the time being, one of the principal points in dispute. It is still a bone of contention in the middle and upper regions. Most of the contract miners in the southern fields are paid by the yard.

The witnesses called by the Reading company today were principally superintendents of conditions of conditions existing about and in the collieries owned by that company.

CHEYENNE MAN HAS PULL.

President Will Appoint Him to the
Circuit Bench.

Washington, Jan. 29.—President Roosevelt has announced his intention to appoint Willis Van Devanter of Cheyenne, Wyo., as circuit judge of the Eighth judicial circuit. There are numerous candidates for the position, but the skill and capacity shown by Judge Van Devanter in conducting the legal affairs of the interior department has made his appointment certain.

Rowe & Kelly Co.
132 MAIN STREET.

Summers, who is suing Peter Eberheim, proprietor of the Herald hotel, on two counts to recover \$500, Judge Tanner, before whom the action is being heard, yesterday found that the defendants were the Bear Lake & River Waterworks & Irrigation company, Bear River Irrigation & Ogden Waterworks company, Samuel M. Jarvis and Roland R. Conklin.

The retrial of the case before Judge Hany was the second hearing in the district court. In the first instance the city of Ogden won. The defendants took an appeal, and secured another trial before Judge Hall, which was in their favor.

About thirteen years ago the Bear Lake company was incorporated for the purpose of constructing a reservoir and waterworks system for Ogden in accordance with a resolution to that effect passed by the city council. Before the work was concluded the bondholders of the company foreclosed, and, upon payment of a certain sum of money, resumed the work under the title of the Bear River company, which was incorporated for that purpose.

Action of Council Repudiated.

In due course of time the work was completed, when the city began suit against the company to invalidate its contract with it and recover the entire system, recover costs for the value of the old waterworks and water supply system of the old waterworks company, and to recover the rentals collected by the Bear River company. The city attempted to invalidate the entire contract on the ground that the resolution passed by the council, which permitted the work to be done, was void.

In his decision, which is an exceptionally long one, Judge Hall holds that the act of the council was legal in the particular, that the contract eventually entered into between the city and the Bear Lake company in accordance with the resolution was legal; that the city of Ogden has no standing in court, and must pay the costs of the action.

NO REDUCTION IN HIS BOND.

Judge Morse Refuses to Lower Dr. Payne's \$7,000 Bail.

Judge Morse yesterday afternoon refused the motion of attorney W. F. Wanless to reduce the bond of Dr. E. S. Payne, who is in the county jail awaiting trial on charges of murder, and degree for the death of Annie D. Hill. The state was represented by District Attorney Dennis C. Eichnor.

Attorney Wanless stated that Dr. Payne was unable to furnish the \$7,000 required by City Judge Diehl, and asked that it be reduced to less than half. He stated that the case would never come to trial, and therefore it was an injustice to hold the defendant in custody.

Elizabeth Acorn has begun divorce proceedings against John J. Acorn on the grounds of desertion. They were married in Ogden, June 2, 1899. They have one child, 2 years old, of whom the mother asks the custody.

John Hatlin has entered suit in the district court against T. C. Thompson to recover \$1,700, due on a promissory note, dated Feb. 10, 1896, bearing interest at the rate of 1 per cent per month.

Best Liniment on Earth.

Henry D. Baldwin, superintendent city waterworks, Shullsburg, Wis., writes: "I have tried many kinds of liniment, but have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth."
